Engineering/IT

Intelligence Customer (IC) Operations Support

CABS provides technical CONUS/OCONUS support for current and future site surveys, deployment, installation, integration, commissioning and repair, upgrade and decommissioning activities.

Strategic Weapons Facility, Atlantic on Naval Submarine Base - Kings Bay (SWFLANT)

CABS provides computer management and help desk support services for SWFLANT. This support includes Operational Support, Help Desk Operations, Help Desk Call Tracking System Administration, Network Operations, Cybersecurity/Information Assurance/System Security Program Support, and more.

Operational Test and Evaluation (OT&E)

CABS provides comprehensive and independent OT&E support services. We employ standard processes and methodologies to support planning OT&E activities and support the review of operational program requirements for testability and achievability. CABS is an independent Operational Test Agent (OTA) that provides early guidance on programs and initiatives, where the primary focus is on IT requirements and solutions, including Agile development.

Defense Health Agency (DHA), J-5

CABS performs data extraction, analytical, and presentation activities using corporate and other data systems to assist in program evaluation, survey operations, and cost assessment decision-making tasks for major activities and headquarters. We provide Subject Matter Experts (SMEs) to support critical research and publications requirements, along with support for the DHA Information Management Control Program. CABS provides on-site executive-level administrative support and professional staff in the Falls Church HQ office.

Navy Information Operations Command (NIOC) Networking Support

CABS provides classified IT helpdesk and networking support for 100 direct support personnel at NIOC at the Naval Command Station, in Whidbey Island. We perform end-user and technical training in supported applications and are the primary interface for IT-related issues and troubleshooting. We order, track, and maintain Government assets, to include computers, multi-function devices, VTC equipment, phones, and peripherals.

Defense Health Agency (DHA) IT Support Services

CABS provides agile software development for TRICARE beneficiaries.

Department of Transportation (DOT), Office of the Secretary of Transportation (OST) Software Development

CABS provides a Project Manager, Information System Security Officer, and Primary Applications Developer/Database Administrator to effectively manage the Asset Management System Software's development for the OST, Asset Management System Software. We ensure the cybersecurity postures of the information system, application, and network and manage and service the help desk.

RMF Cybersecurity Program

CABS provides Cybersecurity professionals, IT specialists, and technicians to perform Cross Domain Solution (CDS) Risk Management for the Naval Meteorology and Oceanography Command (NMOC).

Mission Support

Navy Strategic Systems Programs (SSP) Facilities Management

CABS provides mailroom support, facility planning, design, document production, architectural support, and inventory management for the Navy Yard in Washington, DC. We provide configuration control for facility modifications and maintain digital floor plans.

USAF Air Combat Command Weather Operations Division (ACC/A3W)

CABS provides weather operations program management services in support of the ACC/A3W. We are expanding the workload, performing command and shared lead command operations duties, and Organization, Training, and Equipping (OT&E) duties for all assigned weather organizations. This includes operations research and implementation of revised Air Force metrics policy; increasing the realism of Live, Virtual, and Constructive Operational Training (LVC-OT) environmental simulations; and the Distributed Mission Operations (DMO) management process.

Identification Card Administration (ICA) Support

CABS assists the Navy Personnel Command (NPC) by providing program management as well as Defense Enrollment Eligibility Reporting System (DEERS) and Real-time Automated Personnel Identification System (RAPIDS) sites around the world, including at Naval bases in Guam, Japan, Spain, Italy, and Greece. CABS will be responsible for determining eligibility, issuing, and retrieving/returning Common Access Cards (CAC), and issuing and retrieving/destroying non-CAC ID cards as applicable.

Army Enterprise Multimedia Center (EMC)

CABS provides Visual Information (VI) services to the Army, including photography, video production, graphic design, and training aid development and fabrication.

USAF AV over IP Tech Refresh for The Judge Advocate General's (JAG) School

CABS is replacing the existing video and audio hardware, software, and cabling in the JAG School, on Maxwell Air Force Base (AFB) with a modern Audio-Visual over Internet Protocol-based system. CABS is ensuring connectivity between the old building and the new JAG school wing.

Air Force - The Judge Advocate General (TJAG) Pentagon – VA

CABS is responsible for the instillation of audio and video equipment for the Air Force Judge Advocate General at the Pentagon. CABS provides all supervision and personnel necessary to replace the existing video and audio hardware, software, and cabling in the Pentagon Conference Room and General Officer's offices in accordance with the contracts requests.

Training

USAF International Military Student (IMS) Logistics Support

CABS provides International Military Student (IMS) support in support of Air Education and Training Command (AETC). We provide program management, lodging, logistics, transportation and meal support to Royal Singapore Air Force (RSiAF) and Royal Saudi Air Force (RSAF) cadets, across nine locations CONUS.

DHS FEMA Training Support Services

CABS provides logistics, word processing, editorial support, symposium/meeting support, delivery of training materials, and information dissemination support services for FEMA. We support thousands of resident courses, specialized meetings, national-level symposiums, and workshops annually for FEMA's Emergency Management Institute (EMI).

Naval Air Warfare Center Training Systems Division (NAWCTSD)

CABS assists in the acquisition and management of Navy training systems and provides engineering and instructional design staffing support for the Sailor2025 Ready Relevant Learning (RRL). Our support for the NAWCTSD includes Integrated Product Support, Program Management Support, Systems Engineering Support, and other systems/technological support.

Linguist and Analyst Support Services (LASS) for the US Air Force

CABS assists in providing 215 Linguists/Analysts to perform all phases of collecting, interpreting, translating, and performing analysis of mission data in support of the 25th Air Force. CABS furnishes the required management, technology, and personnel required to provide the requested linguist support. Our support reaches across 16 geographically dispersed locations, both CONUS and OCONUS.
